In this original article, first published in April 2021, the following error occurred: Incidence was estimated based on the total population of Oslo and not the number of inhabitants ≥ 12 years, as stated in the article. This means that all the incidence figures described in the text, Figure 1 and Table 2 are incorrect.

We apologise for this error, which has now been corrected in the online version. For the sake of good order, the old version is available here as a PDF file.
